

Astray (Rödiger/Rödiger)

No dreams, no desire, no hopes, no fire - I see no way
You lead me astray

Before I asked you not to let me down - you did right that an seemed to be glad
And if that's not enough you laughed right in my face
You spat on all the things we had

So that's the end, cause you ran away - it seems to me
You lead us astray

So there's nothing I could really do - to keep your from your chosen path
I must admit I never thought that it could be
That it would happen all so fast

So that's the end, cause of foul play - it seems to me
You lead me astray

There's no guarantee it works - there can never be
But after all this time it ended up in misery
You never told me a reason I would understand
I never really had a chance to change - that seems unfair to me

First you made a fool of me - but now you have to see
There is no other way - you lead yourself astray
you lead yourself astray
you lead yourself astray

Back In Line (Rödiger/Schäfer)

Turn around and leave this way
Seem there's nothing much more to say
Though I have the feeling there is more to do

Can't understand how we came so far
So much misery leaves a scar
it's just a game that we played without rules

Ref.: All I see is that - I'm back in the Line
Waiting for the next play
All I know is that it won't be that fine
Memories are fadin' - all our past times fade away

Empty rooms where we used to be
Still so dark as far as I can see
And I still don't understand what went wrong

Breaking Through (Wächter/Wächter)

I'm breaking through when the Winter is gone
I'm splitting the grey and crusty Earth
I'm breaking through 'cause my time has come
Spreading green live in a burst

I'm breaking through with a budding power
Escaping from an ancient grain of seed
I'm breaking through - it's my final hour
Feel my pulse increase!

Watch for me - I'm breaking through!
Watch for me - I'm breaking through!
I'm unchained - no way to delay
Watch for me - I'm breaking through!
Watch for me - I'm breaking through!
Closing the circle today.

I'm breaking through and you will be gone
I'll be covering earth with flowerly-love
I'm breaking through - the great age will come!
Down-below and up-above

I'm breaking through so make your peace with me
Or there will be no chosen few
I'm breaking through - I am energy!
Watch for me I'm breaking through!

Watch for me - I'm breaking through!
Watch for me - I'm breaking through!
I'm unchained - no way to delay
Watch for me - I'm breaking through!
Watch for me - I'm breaking through!
Closing the circle today.

Can't Breathe (Wächter/Wächter)

I can't breathe 'cause the air is thick like butter

I can't move 'cause my body feels like lead

Cannot think 'cause my brain is filled with rubber

Cannot talk about the love that I once had

I can't breathe 'cause my lungs are filled with fire

I cant walk because my legs are feeling bad

Cannot love because my heart is filled with pain

Cannot talk about the love that I once had

Deep Down Inside (Rödiger/Rödiger)

I seem to inhale every word she sings, every note she plays
And all I can do is standing there
With the feeling nothing can go wrong.
A music-fair with lots of noises in the air,
She came clearly through.

It was the first time I saw her, it was the first Time I heard her
And I had the notion, nothing can go wrong.

Shine your light, shine on!
No matter if it's deepest night or the brightest sun.
You capture me with your songs
And the way you sing them strikes me deep down inside.

Ain't no Rock'n Roll it ain't no Blues
Ain't no-whatever.
I just know it feels good.
I can't really tell what it is that she plays
But I don't mind, for I know,
Yeah I know it's real.

Shine your light, shine on...

She's a woman, she's a backbone
She's a woman, she's a backbone.

Firehead (Wächter/Wächter)

She sold her kisses for caramel
She gave her lips away for long liquorice sweets
And you - you can get her hands for tutti-frutti and tangerine
Oh it might have been - it might have been alright

Tell me why - why is she gone - and where?
Is it true - there is a place where she's watching everything?
And though my live goes on that secret's lingering
Oh it might have been - it might have been alright

And I know she's still alive
I can feel her heart is beating
And I know some angels fly and some angels fall
Anyway I want her back - she's my firehead
Anyway I want her back - my firehead

She said - some day I let you know everything about me.
Said - do you know that I can go right up to the stars?
And she told me 'bout the space - there is so much space out there
But does she know - sometimes I miss her so - I miss her so...

She- she sold her kisses for a piece of caramel
She gave her lips away for long liquorice sweets
And you - you can get her hands for tutti-frutti and tangerine
Oh it might have been - it might have been, it might have been
It might have been alright

Haphazard Harpoon (Rödiger/Rödiger)

Sittin' on a sidewalk - playin' for some pennies
People passin' by me - headin' for tennis
The court is nearby - that's why I know their destination

Foolin' around with a girl that strolls by
A voice in my head keeps asking me oh why
Why and what the hell am I doing here

Ref.: Oh...haphazard harpoon - it doesn't make no sense at all
I feel like a loon
Oh...I could howl at the moon
The only trouble is there ain't no moon at noon

Sittin' on a sidewalk - still with no money
Instead some fellow gives me a full glass of honey
What on earth is this supposed to mean
Should it sweet'n up my sour situation
If I were a bear that would be my infatuation
But that's not the case so I give it freely away

Ref.: Oh...haphazard harpoon - it doesn't make no sense at all
I feel like a loon
Oh...I could howl at the moon
The only trouble is there ain't no moon at noon

Sittin' on a sidewalk - people starin' at me
I asume they think I'm much too lazy - to go to work and that I don't deserve
The alms they give me but there still isn't any - so why do they bother
It's not that funny - haphazard harpoon is all I really have

Ref.: Oh...haphazard harpoon.....

Hightide (Wächter/Wächter)

Waves are rising high - the boat is out on heavy sea
Just a little nut-shell - drifting out of reach
The sea is dark like tar - there's something down below
Hungry and in rage - with eyes of devilish glow

Is there someone asking me?
Is there someone to rescue me?
Someone to help me row that boat?
Can't you see I'm floating on the high tide of my soul

And what kind of mission - had dragged me out there?
What smell of temptation - flowed through the air?
Was there somebody crying for help? - Was it just an illusion?
Was there someone deceiving me? - I can't draw no conclusion

Is there someone to answer me?
Is there somewhere a hand for me?
Someone to get me back on course
Can't you see I'm floating on the high tide of my soul

I'm floating, I'm floating, I'm floating
And I think I float away - leading nowhere

And where are you now? - I lost you somewhere don't know where
Are you standing on the beach waiting? - Are you the seagull in the air?
Why did you drop the rope? - Who told you to let me leave?
I cannot find the way back home - there's no light on the shore for me

Why don't you give me an answer?
Why don't you even ask?
Why don't you try to bring me home?
Can't you see I'm floating on the high tide of my soul

I'm floating, I'm floating, I'm floating
And I think I float away - leading nowhere...

One Step Further (Rödiger/Rödiger)

I must admit - I'm at loss for words
How to clear the sight for something - I still can't see
I don't really know you - yet - there's something in the air
I'm not that blind and if it's - meant to be this way

One step further - I will take - and see what will happen
Along the way
One step further - that much I dare, what will I find
Along the way

Maybe I make this - whole thing up
Imaginative - you might call me
Nothing more than illusions - only a dream
With no foundation - in reality

One step further - could be too far - in the wrong direction
With no one along the way
One step further - I go anyway - and see what I can find
Along the way

I guess it's now up to you - it's your turn now
You know where you can find me - I wait right here
Do I see you coming - is it really you
Shall I be patient - and be strong too

One step further - you might take and see what will happen
Along the way
One step further - and we might find what's in store for us
Along the way

Sleeping Through the Day (Rödiger/Rödiger)

I used to be keen getting clean
when everyone got dirty
I used to get up to the top
when everyone else got down
I used to be me when everybody tried to pretend
to be someone else - who are they anyway

I used to feel blue all the time
while you were always laughing
I kept it in for so long
when crying out was the sign
the sign of the times - for me -
never had any meaning
they wanna be daylight in my eyes
but I still walk on Strawberry Fields

Ref.: Always on the other side
it's the story of my life
Wrong time wrong place
it's always the same

Always on the other side
nothing seems to be right
it's sleeping through the day
and wake up in the night

I used to sink in while you standing on solid
ground
somehow I got lost but you -
were the one who was found
In another life, maybe,
I'll be running with the crowd
but not this time, not now,
do I want it anyway

Ref.: Always on the other side....

Interlude: Maybe I don't fulfill expectations
maybe I don't fit in relations
I always lose before it begins
the odds against me - situation's grim

Ref.: Always on the other side...

Interlude (instrumental)

Ref.: Always on the other side...

The Other Side of the Day (Wächter/Wächter)

Sleep tonight - I will be at your side
wait until You have arrived
on the other side of the day

Close your eyes - let darkness be your guide
Don't have to fear no trouble and fight
on the other side of the day

And You won't have to worry about the next day
And You won't have to give and you won't have to pay
And You won't have to work and you won't have to haste
You won't have to be handsome and kind and you won't have
to satisfy anyone

And no one's gonna push You. And no one's gonna hurt
And no one's not to cheat and betray and make you never be
the same again

Sleep tonight - I will be at Your side
wait until You have arrived
on the other side of the day

Sleep tonight - love will be by Your side
Keeping You warm tonight
On the other side of the day

Too Late for Love (Wächter/Wächter)

Why do you look at me that way?
Kind of trouble in your eyes
I know so well
Can't tell no lies.

Now give me that bad-news
Stab that dagger in me
Let me die in your arms
And let me finally see

That it's too late, too late, too late
It's too late to reach your heart
It's too late to make a start
Too late to find you in the maze
It's too late to save the face
Too late for love!

I hear a golden voice
from a silver disc
He sings about love
and chances he missed

Sounds like an old friend
walking the same way
Sounds so familiar
Telling me today

That it's too late, too late, too late
It's too late to fly a kite
It's too late to start a fight
It's too late to cry a tear
It's too late to get you near
Too late for love!
